CONSENT MOTION FOR ACCEPTANCE OF STIPULATION

Trinity Christian Center of Santa Ana, Inc., d/b/a Trinity Broadcasting Network ("Trinity") and Glendale Broadcasting Company ("Glendale"), by their undersigned counsel, hereby respectfully request the presiding judge to accept the attached "Stipulation--Testimony of John J. Mullaney" into the record in the captioned matter. In support whereof, the following is shown and stated:

1. As noted at the conclusion of the May 18, 1994 hearing session (Tr. 210-211) Glendale and Trinity stated they would attempt to complete stipulations for John J. Mullaney, who had been unable to appear for cross-examination due to the death of his father. The parties have completed such stipulations, and they are attached. It is therefore respectfully requested that the attached "Stipulation--Testimony of John J. Mullaney" be accepted into the

record as Joint Exhibit 8 in lieu of any cross-examination, and that the record in this matter now be closed.

2. Counsel for the Mass Media Bureau has authorized the parties to state that it has no objection to the introduction of this joint exhibit into evidence.

WHEREFORE, Trinity Christian Center of Santa Ana, Inc., d/b/a Trinity Broadcasting Network and Glendale Broadcasting Company respectfully request acceptance into the record of Joint Exhibit 8, and that the record be closed.

Respectfully submitted,

STIPULATION--TESTIMONY OF JOHN J. MULLANEY

Trinity Christian Center of Santa Ana, Inc., d/b/a Trinity Broadcasting Network ("Trinity"), and Glendale Broadcasting Company ("Glendale") hereby stipulate that if John J. Mullaney were called to testify, he would testify as follows:^{1/}

1. On January 15, 1992 Mr. Mullaney prepared and sent to Greg Daly, with copies to George Gardner and Lewis I. Cohen, a map purporting to show various areas in which it might be feasible to locate an antenna site for an application on channel 63 to serve Monroe, Georgia. The map prepared by Mr. Mullaney identified both the existing tower of WHSG(TV), Channel 63, Monroe, Georgia, as well as an area in which an antenna site could be located more than 280.8 kilometers from the reference coordinates for the channel 63 allotment at Montgomery, Alabama.

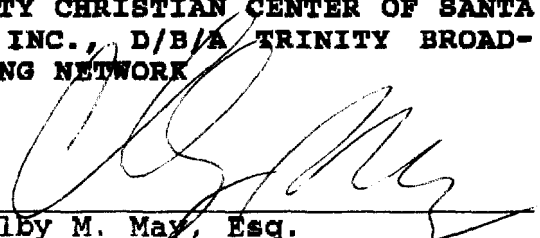

2. To Mr. Mullaney's understanding, no applicant for new or modified facilities is required by Commission rule or policy to have a determination of no hazard from the Federal Aviation Administration for its specified site when it files or amends a new or major change application. An application specifying a site for which FAA approval has not been obtained is acceptable for filing and will be processed until otherwise ready for final grant, or for designation for hearing, as the case may be. Many new and major

change applicants file or amend pending applications specifying an antenna site for which they do not have FAA approval. The FCC would not grant Glendale's Monroe application until the FAA has issued a determination of no hazard to air navigation for Glendale's proposed tower.

3. Mr. Mullaney did not recommend or investigate the availability of any site that was equal to or more than 280.8 kilometers from the reference point for channel 63, Montgomery, Alabama, including the site of WFOX(FM), Gainesville, Georgia. To the best of his knowledge, nobody associated with Glendale searched for such a site.
